- Prompt Engineering
- AI Coding Tools

STRENGTHS

- Teamwork & collaboration
- Clear communication
- Creative problem-solving
- Organisation
- Self-management
- Building with AI tools

EDUCATION

B.S. Information Technology
2014 – 2020
St. Dominic College of Asia

Ericson Orias Funtanar

SENIOR FULL-STACK TYPESCRIPT DEVELOPER

Software engineer specializing in single-page applications with React and TypeScript, backed by Node.js and GraphQL. Less about writing code and more about continuously learning new technologies and methodologies to raise efficiency and quality across every layer of a product.

EXPERIENCE

WiseCloud Inc.

Sep 2023 – Present

Senior Full-Stack TypeScript Developer · Taguig, NCR (Remote)

- Software Engineer (Frontend) at **Charma**, a Sweden-based company, contracted via WiseCloud Inc.
- Lead developer of **Swippy**, the company's e-commerce mobile site, built with React, TypeScript and GraphQL.

TELUS International Philippines

Nov 2021 – Sep 2023

Applications Development Specialist · Philippines

- Built and maintained the **CASA application** for a Canada offshore client — the internal tool TELUS Canada customer-service agents use to resolve issues with customers' TELUS ISP and mobile plans.

Cloud Panda PH

Nov 2020 – Oct 2021

Software Engineer · Philippines

- Delivered **Globe GAccess** (external project) using ReactJS, Apollo GraphQL, TypeScript and Node.js.

Freelance

Jan 2020 – Nov 2020

Software Engineering

- Freelance web development: Medical Laboratory Management System and NAHV landing page (CodeIgniter); Ironicraze e-commerce website.

New Life Christian Center

2017 – 2019

Web Developer

- Bible school portal on the MERN stack; point-of-sale system with React and Flask (Python); automated attendance system with React and Django.
